Once you've signed in to your account, you can look at your profile, your schedule, your visit history, purchase history and account. You can also choose the on-demand videos you wish to watch.

4) To watch the on-demand videos, click on the “**Virtual Classes**” tab at the top.

Here you'll see the video library and choose any of the on-demand classes you wish to take. Make sure to look at the class description to decide which class to take before clicking on it. Once you click on the class name, you have purchased that class. (Please note- you will have to click twice to open up the video. The first time, the link will turn red; click again and the video will open in another window for viewing). You will then be able to watch the video and take that class.

**IMPORTANT-** You will have access to each class you choose until Sunday at 5:00 pm ET of the week you purchased it. During that time, you can view the video as many times as you like. After that, the link will no longer be available and you will not be able to watch the video of that class. Each class you click on will deduct one class from your account. If you want to take more than one class, you can do so, but remember that each class you buy expires on Sunday at 5:00 pm ET of the week in which you click on it. Also, you must have classes in your account in order to purchase the on-demand classes. If you're not sure, just look in your account in order to see how many classes you have available.

**Shared Passes-** If you are someone who shares a class pass with another person, the person who has purchased the class pass is the only one who can purchase the video classes. The person sharing the class pass will not be able to buy the video classes.
